

Addressing Liver Disease and Access to Transplant Care in Alabama

*This program is designed for GI, PCPs, APPs
and nurses working with liver patients.*

Thursday, May 22, 2025

Networking 6:00 PM – 6:30 PM

Dinner/Program 6:45 PM – 7:45 PM

Q & A 7:45PM – 8:00PM

Dothan Country Club
200 South Cherokee Avenue
Dothan, AL 36301

Speakers include:

Robert Cannon, MD, FACS
Surgical Director
UAB Liver Transplant

Meagan Gray, MD
Associate Professor of Medicine
Transplant Hepatologist, UAB

Objectives

- Define liver disease (including MASH/NAFLD, alcoholic steatohepatitis, and viral hepatitis) its etiologies, common presentations, and manifestations.
- Discuss prevalence and treatment access disparities for patients with liver disease in Alabama communities.
- Describe current treatment options, including medical management, liver transplantation, and palliative care.
- Decide when to refer patients to a higher level of care vs. when to continue to surveil for signs of disease progression
- Understand the importance of referral and coordination between primary care providers and transplant centers.
